SHENANDOAH COUNTY RESCINDS DROUGHT WARNING

Woodstock, Virginia – A Drought Warning declared on July 23, 2024, is being formally rescinded effective October 1, 2024.

The Drought Warning was originally issued following a period of below-average rainfall during the portions of the summer of 2024. Following several rainfall events during the month of September, surface water and groundwater levels show signs of improvement sufficient to rescind the warning.
