## **DIRECTORS REPORT**

Maps of all Parks & Recreation county properties, Wagner Park is where we hold the annual fishing derby. At this time the county is working with the family to have access to the house on the Wagner property to remove what they would like because the heir passed away in February 2019.

Keister property is sitting there and just needs access to get into the property. Meant with VDOT because the road would need to be improved prior to looking at creating access into Keister property. A masterplan has not been done on this property in 15 years

because much could be done at this property, such as hiking, camping, kayaking and tent camping.

County Park paving trail project is in the process in being started. There is extra that we would like to add. RFP has not gone out yet but a rough estimate of \$90,000

We are looking at \$100,000 grant from the Town of Woodstock for flower retaining wall.

We have added three rows of board fencing in place of the old fence. We have lost over 70 trees this year. Club Scouts and Girl Scout have donated trees.

Egg Hunt went well with it being on a rain date, we had over 140 kids and we usually average about 300.

Color Run was a great event last year and hoping for another great event and more participants this year. We have large yard games, music, bounce houses, food and ice cream.

#### Budget

CIP funded a new mower and retaining wall for Field #1

We have started to have a concession stand at any tournaments held at the County Park.

Need to explore the option of creating a 501 C3 to put our program funds in.

Need to reach out to new high school members
